PROFILE SUMMARY

Backend Developer and Computer Science graduate with hands-on experience developing Python/FastAPI APIs during an on-site internship at Decibels Dev. Worked with authentication, authorization, feature flags, SQLAlchemy models, PostgreSQL, migrations, and frontend integration.

WORK EXPERIENCE

DECIBELS DEV | Jul 2026 – Oct 2026

Backend Developer Intern • On-site, Bahawalpur

- Developed and tested Python/FastAPI endpoints.
- Collaborated with frontend developers on API integration.
- Implemented organization-level feature flags and worked on authentication and authorization.
- Worked with SQLAlchemy, PostgreSQL, Alembic migrations, and validation.
- Documented and tested APIs using Swagger/OpenAPI and Postman.

FEATURED PROJECT

ORGANIZATION MANAGEMENT PLATFORM

Internship project • In development

Contributed to a backend platform for organizations, suborganizations, package assignments, feature flags, users, and role-based permissions. Developed APIs and worked on authentication, database operations, and validation.

Stack: Python, FastAPI, SQLAlchemy, PostgreSQL, Docker, Alembic, Postman.
